## INDY AUTISM PROJECT

PROPOSED BY  
COUNCILLOR ALI  
BROWN

### Indy Autism Project

"I created the Indy Autism Project with the goal of creating a city that leads with kindness and sees the strengths in our differences. People on the spectrum deserve a world that works for them and allows them to achieve their personal goals. Great leaps forward come from those who see the world differently. Indy is ready to embrace our neurodiverse community for who they are."

Ali Brown  
Indianapolis City-County Council, District 5  
Mother of Dylan, 3 years old

DO YOU  
HOST OR  
ATTEND A  
SUPPORT  
GROUP?

### Support Groups

Do you host or attend a support group? ASI is always looking for support groups across the state. In order to best serve our community, we aim to provide a comprehensive list of resources for support groups. If you or someone you know hosts or attends a support group, we would love to get more information! Email [aschwartz@inautism.org](mailto:aschwartz@inautism.org) with any information.

**Vitalxchange brings us the ability to keep in touch with you all in a completely new way!**

By joining the community, you will see all our posts, receive notifications for events that you may otherwise miss, and even chat with other members or the Autism Society of Indiana whenever you need.

The Vitalxchange app has advanced matching technology to make sure your voice is always heard. Through it, you are linked to members across the world who may have experience or have advice to share. It also means you can become a more active member of the community and share your knowledge to help others.

All of us that have been affected by autism personally or in our families know how far autism support has come, but we also know how far we have yet to go. Vitalxchange is on a mission to change the world of autism forever, but they need everyone's help to do it.

The team at vitalxchange has worked in the medical industry for over twenty-five years and have seen profits come before patients time and time again. They created vitalxchange to address the problems they themselves have faced with their families with chronic illnesses and disabilities.
